(Profile: Economics and Project Management)

3. Description of the profile focus

In accordance with the curriculum, section 1.1 the student who completes the profile will obtain the same competency through academic and practical focus as described below:

Academic focus

The purpose of this profile is to give students the capability to ask questions that are characteristic primarily for application-oriented microeconomics and attached policy related subjects. This profile also gives students an eye for using economic theory and method to give reflecting answers.

Key academic fields will be economic evaluation and assessment of incentive structures.

Practical focus

This profile is targeted students who seek employment within the field of consultancy or who seek employment as project managers in either the public or the private sector.

The profile has a strong action oriented focus as students will take part in project-oriented studies.

4. Other regulations

4.1 Language

The programme is offered in English.

4.2 Project-oriented studies and studying abroad

Project-oriented studies and studying abroad is recommended to take place in the 3rd semester of the programme.

The master's thesis is written in collaboration with an external partner.

4.3 Semester structure

As a general rule, each semester is of 15 weeks' duration: The autumn semester 1/9-21/12 (incl.) and the spring semester 1/2-31/5 (incl.). Some autumn courses may, however, be planned as 11 week courses. If so, this will be stated in both the course description and the time table.
