

Project & Trainee Period

Short introduction on how to find a project organization & 'Career Management Skills'

Rasmus Helsted Jakobsen
Career Counselor
SDU RIO
SDU Student Job & Career

Why choose a Project and Trainee Period?

- Hands-on experience applying theory to practice
 - Insight into organizations and job functions
 - Develop your professional network
 - Develop your CV
- Internship counts as experience for employers*

What would you like to gain from a Project & Trainee Period?

- Find an organization and tasks that matches your study profile
- Consider:
 - Is there a specific **subject-related area** you would like to work with in a practical setting? (e.g. green marketing, HR in international organizations, financial strategy development, etc)
 - Is there a specific **business area** or sector you would like to learn more about? (e.g. robots, data science, event industry, governance institutions, etc)
 - **Size** of organization – small, medium, big, global?
 - **Type** of organization – start up, private, public, NGO or...?
 - **Where** – close to home or...?
 - Are you already **part of** an organization that might be relevant – or **know** somebody in an interesting organization?

🚀 Join the Construction Evolution! SoMe Marketing Intern Wanted at ROICO

Are you ready to transform the construction industry with cutting-edge robotic solutions? ROICO Solutions, a dynamic startup based in Denmark, is on the lookout for a talented SoMe Marketing Intern to be a key player in our journey. We want someone to strengthen our team starting **September**.

About Us:

At ROICO we are developing a collaborative painting tool using robotic technology. We empower painters with a solution that works alongside painters allowing them to focus on high-value and value-creating tasks. This tool will help painters strengthen their business, reduce physically demanding tasks, and address the rapidly increasing labor shortage. Our aim is to make robotic solutions that work together with people.

Universitetspraktikant inden for analyse og organisationsudvikling – kombineret med en lønnet stilling som studentermedhjælper

Vil du prøve kræfter med komplekse problemstillinger, forandringsprocesser og kommunal udvikling? Så tilbyder vi i Vejle Kommune en mulighed for, at du kan bringe din faglighed i spil og prøve dine kompetencer af som en del af et stort projekt, hvor ambitionen er at forbedre datakvaliteten i Kommunens Børn- og Ungeområde. Du får erfaring med kvalitative metoder og organisationsanalyse indenfor en stor, politisk styret organisation, der prioriterer at sætte barren højt.

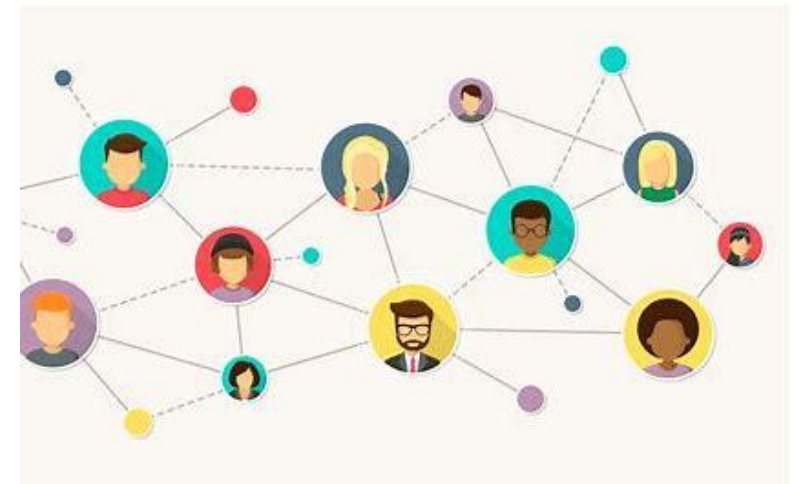

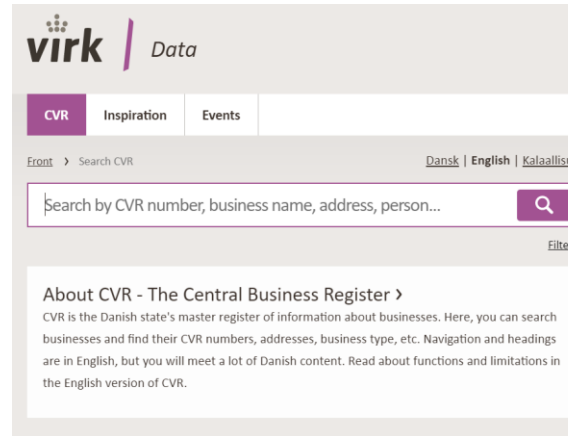

Vi søger en universitetspraktikant til efteråret 2025 i en kombinationsstilling med 30 timers praktik og 7 timers lønnet arbejde som studentermedhjælper i samme team.

We can help you

- Where and how do I find relevant posts and organizations?
- How do I contact an organization?
- What do I have to offer as an intern?
- How do I make a targeted application and CV?
- How do I prepare for a dialogue with the organization?
- How do I make an agreement with the organization?

Go to mitsdu.dk – career paths

Online info om internships or book a talk with us:

https://mitsdu.dk/en/mit_studie/kandidat/candmerc_odense/karriereveje/find-en-praktik-eller-studiejob

My advice to you

Don't hesitate to seek out the non-obvious opportunities, such as;

- Unsolicited applications**
 - Contacting an interesting company with no active job posts
- Student jobs**
 - Present the idea of an internship even though it is a student job post.
 - that can turn into a student job afterwards?

Do it – its a great career move!

Start the planning early – finding an organization takes time

Use SDU RIO services – career talk, online resources + CV Check

Career Management Skills

A part of your Project and Trainee Period

What is Career Management Skills?

- An online 4 module course in connection to your Project and Trainee Period
- Facilitated by a Career Counselor from SDU RIO
 - 1 synchronous webinar in the beginning of the semester
 - Rest of the activities are asynchronous
- The purpose of the course is:
 - Inspire you to get the most out of your project period career wise
 - Increase your chances of getting a job after graduation
 - Prepare you to make decisions about your career
- Topics centered around your experiences in your project organization
 - How to activate your skills and competences
 - Networking
 - Career strategies and tools to apply for jobs

From the Course Description (10, 20 ECTS)

Throughout the Career Management Skills modules, the students will bring their competences and resources to action in their project company as well as reflect on their experiences during the semester.

The themes of the course include knowledge about competences, awareness of one's own competences, network and cooperative relations, strategy and planning as well as an understanding of the current and future labor market.

How is it organized?

Placed on your Its learning room

Concrete tasks – individual and collaborative

Reflections, discussions in Itslearning room

Links to activities in your project organization

Feedback and interaction with fellow students and SDU RIO counselor

Active participation – do minimum 3 out of 4 modules and work actively with tasks

Thank you – and hope to see you again!
