

**Welcome**  
to **AIESEC** in **Denmark!**

# Our History

1948

AIESEC was established in 1948 after World War II, where seven youth across seven countries (Belgium, **Denmark**, Sweden, Finland, Norway, The Netherlands, and France) had a dream of building cross-cultural understanding across nations.

1977

By 1977, AIESEC was present in 50 countries across six continents! To this date, over 40,000 young people around the world had participated in a leadership development experience.

2010

In 2010, AIESEC crosses 10,000 experiences delivered in one year alone for the first time. By now, over 230,000 experiences have been provided, all facilitated by youth for youth.

2015

In 2015, AIESEC's youth leaders from 126 countries and territories in collaboration with the Office of the Secretary-General's Envoy on Youth gathered at the United Nations Headquarters to promote and drive youth participation in implementing the Sustainable Development Goals (SDGs). The relevance and contribution of AIESEC is clearer than ever.

# Our Programs

The AIESEC Member program is an **informal education for young people**, that focuses on leadership development at the core.

Develop your leadership through a **volunteering** project abroad contributing to the Sustainable Development Goals.

Develop your leadership while boosting your professional career prospects through an **international internship**.

Develop your leadership while boosting your professional career opportunities through an **international teaching internship**.
