# Personal tips for the cand.merc

## 1. Shape Your Direction

- ☐ Reflect on what motivates you and where you see yourself after graduation
- ☐ Your BA background is already part of your profile – now is your chance to tone it or shape it further – perhaps in a different direction

## 2. Build Your Cand.merc. Toolbox

- ☐ Over the next two years you'll add advanced theory, methods, and perspectives – try to find areas of extra interest and explore further yourself
- ☐ Use electives, projects, thesis and (student) jobs to sharpen the tools that fit your path

## 3. Explore, Experience & Enjoy

- ☐ All experience adds value – relevance helps, but the key is to reflect on what each experience brings to your profile
- ☐ Two years go fast: be intentional with your choices, but also remember to enjoy student life 😊 😊 😊
