Information om brug af computer under forberedelse i forbindelse med mundtlig eksamen med forberedelse

Det er tilladt at anvende sin egen computer under selve forberedelsen i forbindelse med mundtlig eksamen med forberedelse. Brug af internettet er dog **ikke** tilladt under forberedelsen. Du skal derfor slå fildelingstjenester, chatfora og andre sociale medier fra (Facebook, Dropbox, Messenger, iCloud, Google Drive, OneDrive, OneNote etc.), idet elektronisk kommunikation betragtes som eksamenssnyd. Det skal ligeledes bemærkes, at du skal kunne tilgå alle noter på din computers eget drev. Det er derfor vigtigt, at du henter alt materiale, som du skal bruge under forberedelsen, ned på din computer.

Desuden bedes du være opmærksom på, at der **ikke** vil være IT-support under forberedelsen. Du er selv ansvarlig for, at din computer virker. Du får kun den tid til rådighed som forberedelsen varer (jf. fagbeskrivelsen på faget), hvilket inkluderer opsætning af din computer. Du vil derfor ikke få tildelt ekstra tid, hvis din computer ikke virker.

Information on the use of computers during the preparation time in connection with oral exams with preparation

You are allowed to use your private computer during the preparation time in connection with oral exams with preparation. The use of internet, however, is **not** allowed during the preparation. You must turn off any file sharing services, chat forums and other social media such as Facebook, Dropbox, Messenger, iCloud, Google Drive, OneDrive, OneNote etc., as all electronic communication will be considered exam cheating. It is essential that you transfer the material that you wish to use at the preparation onto your computer before the exam.

Please note that IT-support will not be available during the preparation. You are personally responsible for setting up your computer and for ensuring that your computer is fully functional throughout the preparation. You will not be given any extra time to set up your computer. This means that the preparation time stipulated in the course description is applicable and is inclusive of setting up your computer.
