

# Action plan – HEALTH

Date: **23-04-2019**

Action plan for			
Programme: Public Health - Master			
Module: Health Promotion Planning	Module coordinator: Christiane Stock & Lotte Vallentin-Holbech		Response rate: 19%

Topic	Explanation	Follow up	Timing	Responsible
<i>Unclear feedback from lecture</i>	<i>The feedback was sometimes unclear and lacked good examples on how to link theory and practice, which made it difficult to conduct the group task.</i>	<i>Better and more explicit case examples will be included in the lectures and clearly linked to theory.</i>	<i>Next module start (2020)</i>	<i>Lotte Vallentin-Holbech</i>
<i>Student presentations</i>	<i>The presentations from all groups at the end of each lecture was too time consuming and did not add additionally to the group work.</i>	<i>Various presentation-methods and peer-feedback methods will be included for the presentations of the groupwork.</i>	<i>Next module start (2020)</i>	<i>Lotte Vallentin-Holbech</i>
<i>Groupwork</i>	<i>The groupwork was motivating and provided an opportunity to go into dept with a specific topic.</i>	<i>The groupwork will be continued as previously.</i>	<i>Next module start (2020)</i>	<i>Lotte Vallentin-Holbech</i>
