

Action plan – HEALTH

Date: **19.2.2019**

Action plan for	
<i>Programme: Master of Public Health</i>	
<i>Module: Health Measurement Scales</i>	<i>Module coordinator: Anja Leppin</i> <i>Response rate:</i>

Topic	Explanation	Follow up	Timing	Responsible
<i>Too much content/too many slides</i>	<i>3 comments indicated that there may have been too many topics/slides for the given time frame (while one mentioned there should have been more topics).</i>	<i>The short nature of the module (4 instead of 8 weeks) makes it difficult to cover at least the bare essentials, but I will review the materials and check 1) whether cuts are possible, 2) whether some topics may be moved from the lectures to “reading only” or to smaller podcast presentations.</i>	<i>Until Module in Dec/Jan 2019/20</i>	<i>Anja Leppin</i>
