

Orientation Day Programme – 29th of January 2021

For exchange students Spring 2021 at the Faculty of Health Sciences

Dear student!

Welcome to SDU and the Faculty of Health Sciences!

The Orientation Day programme on 29th of January 2021 is an introduction to studying at SDU. The programme will touch upon the study programme, exam rules, online platforms and practicalities that are instrumental for making your exchange stay at SDU as smooth and rewarding as possible.

The student advisors will be a main feature in the programme. They will show you how to navigate the online teaching and student platforms, explain exam rules, how you find timetables, submit assignments, where to find study materials, tips and tricks to use the library and how to use Student Self Service.

This year, sadly, we will not be able to sit and have lunch together nor will the student advisors be able to give you a guided tour of the campus grounds. Hopefully, they will be able to do that later on when restrictions are lifted.

| Time | Program |
|-------------|---|
| 09.00-09.15 | Welcome to SDU and the Faculty <i>By Ditte Marie Salling, international coordinator</i> |
