

Answering assignments

- *students*

February 2024

This guide covers where and how to answer assignments in itslearning

1. Where do I find an assignment in itslearning

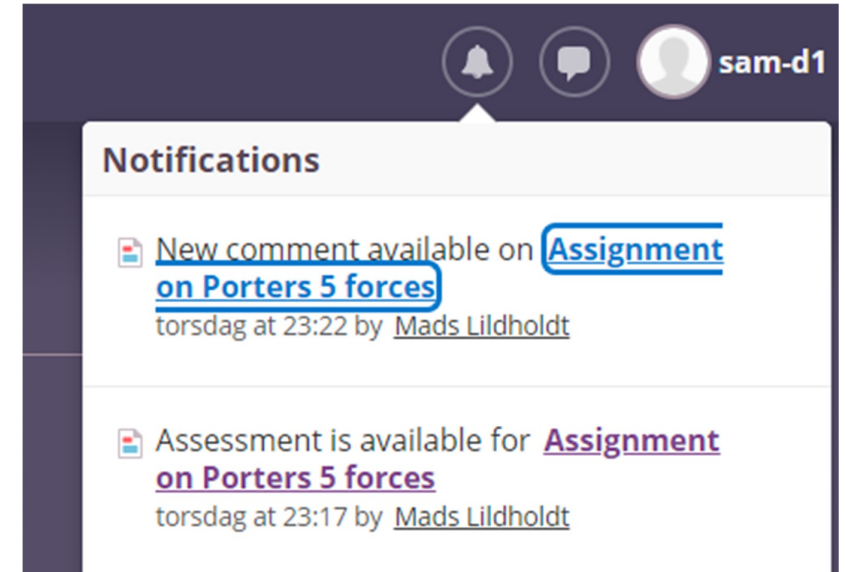

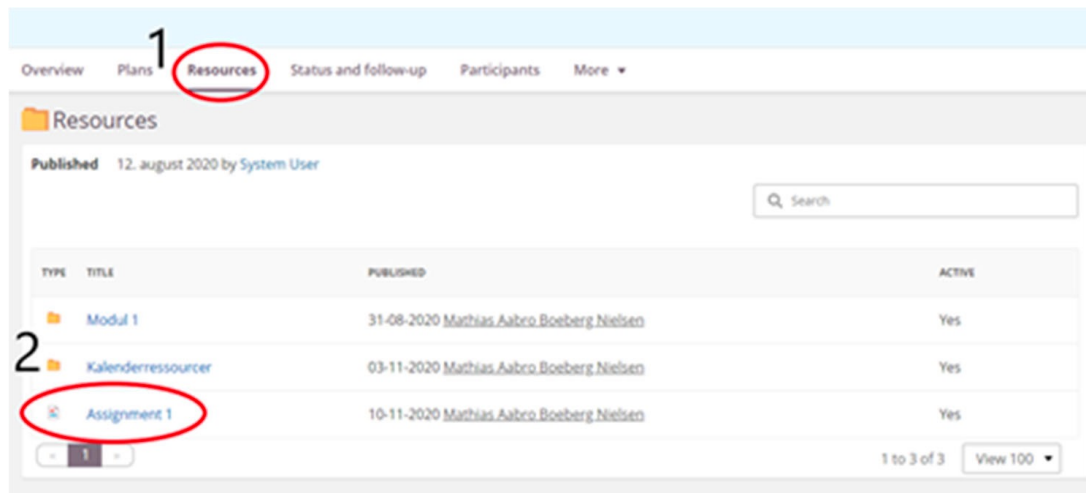

Assignments in itslearning are accessed directly via the specific course room. If your teacher has created an assignment in his course, you can access it via two paths

1.

Via the front page when logging on to Itslearning - click on the bell icon in the upper right corner to access Notifications. From here, you can find the relevant assignment

2.

You can also access an assignment via the tab Resources, when you have entered the specific course room in itslearning. Click 'Resources' and choose the relevant assignment

2. How do I answer an assignment in my course on itslearning?

When you have accessed the assignment in question, you are directed to the main page for the assignment or test (in this example a multiple choice-test). On the main page relevant information about the assignment is located

1.

When ready, start the assignment by clicking 'Start test'. You are now transferred directly to the test.
